

Environmental Policy Statement

Formcon Contractors Ltd works with clients to deliver projects and provide improved surroundings to people and communities. As a result, we deliver many environmental benefits and improvements.

However, we recognize that there is also a cost to the environment in the delivery of our projects and services. It is our policy to conduct our business in an environmentally accountable manner and are committed to complying with all relevant environmental legislation, and where practicable, to minimizing any adverse environmental impacts that may result from our operations. In implementing this policy, we aim to:

- Take into account the direct environmental impacts of our operations, including those of our offices, yards and storage, and in the procurement of materials and services
- Work with our clients and our supply chain to identify and mitigate the environmental impacts associated with the projects and services we deliver
- Monitor and measure the environmental performance of our activities in order to drive continual improvement in areas of significant risk and opportunity
- Provide a culture of environmental awareness for our staff through training and communication

As part of our commitment we will set objectives and targets, which will be reviewed annually as an integral part of our business planning and strategy development

We believe that through the implementation of this policy and our management systems we are able to meet our commitment, and in addition look beyond compliance towards best practice.
